

Immaculate Heart of Mary School Dress Code 2016-2017

In keeping with the philosophy of IHM, we believe that appearance of students has an impact on attitudes and behavior. As a symbol of respect that creates an environment and provides an opportunity for education, the dress code that follows is designed to assist the students in developing a sense of modesty and decorum that emphasizes an appropriate manner of dress for the proper place and time. In related matters involving dress code, administration and faculty will make final decisions regarding acceptability and appropriateness of dress. Parents are expected to uphold this code and see that their children are in conformity with these policies and codes. This code applies to school and all school-sponsored activities.
